

M3_V2 Remote DIAL Construction :**H4 DIAL Construction :**

NEW H-SERIES platform is built to withstand impact. The updated cartridge assembly is engineered for durability, quick installation, and easy repair.

SYSTEM ANATOMY**DIAL**

Varying in size, design, and user interface, Boa dials fine-tune fit with precision, allow for quick adjustment, and never settle on performance.

LACE

The workhorse of the Boa Fit System, Boa laces routinely tolerate the toughest environments and field tests, and are expertly configured for precision and performance.

**LACE GUIDES**

Lace guides replace traditional eyelets and the deficiencies that come with them. Boa lace guides are designed to minimize friction and distribute even closure.
